The app is not run from an executable file, there is a readme file with the instructions on how to run the app. I was unable to place it in an executable file as the app is a webapp and I could not find a hosting service for the webapp.

The supporting material for my project is bigger than 50MB.

As I have been instructed, I have included the link to download the file from Dropbox:

https://www.dropbox.com/s/aifl2815syn6g7w/FinalYearProject.zip?dl=0
